Note on group size. The 15 English-medium groups listed for 2026/2027 have 411 students in total, averaging approximately 27 students per group. Individual group sizes range from 16 to 30 students.

A dash means that the list for that year contains no group explicitly marked as English-medium under that programme title.

What the figures show

Political Science has one English-medium group in each of the three years covered. In Jurisprudence, the lists identify two groups in Year 2 and two in Year 4. In International Relations, they identify one group in Year 4.

The economics programme titles vary by cohort. The Year 2 and Year 3 lists use “World Economy and International Economic Relations”. The Year 4 list uses “International Economics and Management”. The table preserves both titles so students can locate their cohort.

Group codes by year of study

Students can use the codes below to identify their group within the relevant programme. In the lists for Years 2 and 3, English is abbreviated as “Eng”. The Year 4 list uses the Uzbek word “Ingliz”.

The figures count academic groups. They cover the designated language of instruction for 2026/2027 at group level. The records reviewed give no module-by-module breakdown.
